ULTRA-A[®]
Herbal

... destroy the entire Ants colony

Mode of action: ULTRA-A liquid contains natural ant attractant and herbal ant killer. After spot application of liquid in way of travel of ants. the worker ants get attracted towards liquid, take the liquid to the nest and feed it to the queen, reproductive casts and soldiers of colony. Within 2-3 days all ants including worker collecting foods and reproductive casts die.

Method of Application:

Spot application of the liquid should be applied at the corners of kitchen, wash basin, at corners of windows, at the corner of walls and outer periphery of the house which is most predominant area of ant infestation.

Dose: 20ml liquid is sufficient for 500 to 700 sq. ft area.
