CHEMICAL INDUSTRIES LTD.

Protecting your family & home AGAINST HARMFUL PESTS

INTRODUCTION

The control of diseases in Kenya and in many African countries remains an urgent priority with over 80% of the population at risk of infection. Vector control is a key component of the Roll Back diseases Global Strategic Plan being implemented around the world.

The use of natural as well as synthetic insecticides & vector control products is a well-tested and proven method of vector control and elimination in many households and institutions. Today, vector control through indoor & outdoor residual spraying is being lauded as a highly effective strategy in reducing diseases spreading. MOSKILL® & SWORD® is our brand names for insecticidal products. Under this brand we manufacture and market coils, repellent liquid vapourisers, aerosols, vermin powders insecticides and rodenticides.

Closely linked to Public Health is the whole question of sanitation and hygiene both in our private homes as well public spaces. In this regard we formulate and market a handy range of cleaning and disinfectant solutions using modern additives for improved efficacy that we market under the MOSKILL® & SWORD® brand.

Working with the architectural and construction stakeholders in the region, we established a huge need for decorative products hence our launch into the market of the now popular OSHO FERROX® brand to appeal to and satisfy the growing tastes for fine finishing materials for all manner of building works.

Osho Chemical Industries Limited has invested substantially in products research and development using modern technology and extensive collaboration with partners around the globe to bring about world class, and most effective and affordable formulations to the East African market.

We are passionate about delivering excellent service to every customer and consumer of our products. Our products have enhanced safety profiles and come in flexible packaging options to suit the requirements of the evolving modern consumers.

Our products meet the highest certification standards for general and professional application by the Pest Control Products Board of Kenya and Kenya Bureau of Standards among other regulatory authorities.

Main Channels of our product use

Residencial

Hygiene, Sanitation, Gardening

Hospitality

Hotel chains, independent hotels, Bed and Breakfast, holiday resorts, youth Hostels.

Healthcare

Hospitals, private clinics, laboratories, pharmacies, medical offices, rehabilitation centres, senior homes, specialised centres, psychiatric asylums.

Industry

Food industry, all factories, slaughter-houses, aeronautics, public works.

Education

Schools, Universities, training centres, Kindergarten.

Food service

Cafeterias, fast foods, traditional restaurants, caterers, canteens, home deliveries.

Entertainment

Entertainment and leisure resorts, fitness clubs, Stadiums, swimming pools, Seaside resorts, Museums, casinos.

Government

Prisons, administrative buildings, cultural centres, town halls, Museums.

Building services

Cleaning Companies, Parks Maintenance, Architects, Engineering and design offices, All service providers.

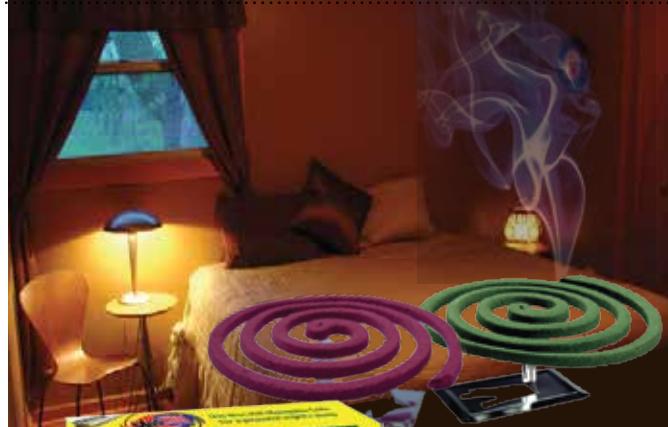

Retail

Supermarkets, Convience stores, Pets stores, Gardening stores, shopping centers.

MOSKILL® COILS

Pyrethrins 0.2% w/w
inert ingredient 99.8% w/w

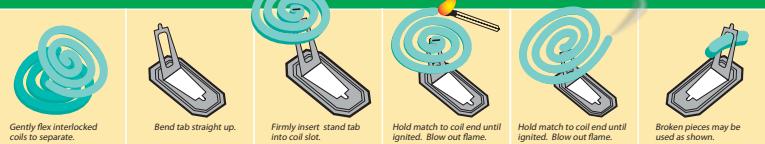

MOSQUITO REPELLANT COILS

- ◆ Economical packs.
- ◆ Refills available.
- ◆ Perimeter of protection: Coils protect up to a 10ft x 10ft area
- ◆ Each Coil Smolders Pleasantly For Hours.
- ◆ Tested in the most extreme mosquito conditions.
- ◆ No chemicals or sprays on your skin.
- ◆ Contains natural pyrethrum.
 - Low mammalian toxicity.
 - Low persistence in the environment.
- ◆ Rapid knockdown.
- ◆ No resistance build up.
- ◆ Easy to use

SIMPLE DIRECTIONS FOR USE:

2. Put it away from food, ware for eating and plastic toys etc..
3. Don't use it with any other moth-proof products.
4. Don't eat and keep out of reach of children.

BIOPIT® DIGESTER

Enzymatic residue

PIT LATRINE & SEWAGE DIGESTER

Naturally | solved

ECO-FRIENDLY
PRODUCT

BIOPIT® DIGESTER contains a blend of beneficial bacteria in a dissolvable "no-mess" powder formulation, which non-chemically eliminates the build-up of household wastes, which cause odors, blocked drain lines and septic system failure. This formulation will NOT leave messy particles behind in the toilet bowl or sink after use. BIOPIT® DIGESTER does NOT contain harsh chemicals, solvents, caustics or acids.

BIOPIT DIGESTER WILL NON-CHEMICALLY ELIMINATE: FOG (Fats, Oils & Grease), Proteins, , Starches, Fruit Wastes, Urine, Sugars, Vegetable Wastes, Oil & Gasoline, Tissue & Paper, Human Wastes etc.

No new pit latrine

BIOPIT® Digester is economically because it alleviates the necessity of periodic rodding and occasional building of new drainages and pit latrines due to overflow and blockages.

Odour/gas eliminator

Effective for eliminating foul organic odours, because it does not simply mask the odour but it targets and digests the organic substance that causes the bad smell.

Disease Control

BIOPIT® Digester can make a very significant contribution to the prevention and spread of diseases such as cholera, dysentery, diarrhoea, and typhoid which are caused by the lack of waste treatment facilities.

Biogas Production encourager

BIOPIT® Digester brings about cost savings by:

- Replacing physical and chemical treatments.
- Improving processing efficiency.
- Reducing production time.
- Reducing energy needs.
- Using less raw materials.

Application: Dissolve the 500gm pack of BIOPIT® DIGESTER in 2 litres of warm water (not hot). Let it sit for 1 hour before pouring in your pit latrine/ septic tank etc.

Dosage Guide lines	Initial Dosage	Maintenance Dosage
Pit latrines,Septic tanks Waste ponds of size 480ft.cub.	500gms per 2 weeks for 1 month	500gms per 2 weeks for 1 month
Industrial effluent e.g. abattoir	100 gms for 3 consecutive days	30 gms per day
Sewage plant trickling filler	0.5% once off w/w	0.25% w/w
Anaerobic digester oxidation pond.Activated sludge.	5% for 3 days w/w	2.5 w/ w/ weekly

AQUARIGHT®

High grade Calcium Hypochlorite
(SODIUM PROCESS) 70%

MULTI-PURPOSE *Disinfectant & Bleaching agent*

- ✓ High effective chlorine content
- ✓ Less Residue
- ✓ Good Stability
- ✓ High solubility

AQUARIGHT® is a high grade Calcium Hypochlorite which has very wide application in swimming pools and drinking water treatments. It's area of application is increasing day by day and has a great demand world over.

The major applications are:

Sanitization Of Swimming Pools | Hypo chlorination Of Drinking Water | Aquaculture & Processing | Industrial Applications | Breweries | Application In Canneries Application In Dairy Units | Meat Processing Units | Industrial Water Treatment Industrial Cyanide Waste | Textile Industry | Fruits and Vegetables | Leather Industry | Paper Industry | Sugar Industry Poultry Plants | Hotels / Restaurants | Hospitals etc.

CHEMICAL INDUSTRIES LTD.

New Generation Disinfectant

Multi-application Disinfectant , Water Sanitiser, Cleaning Agent for water apparatus & Water distribution systems

- Kills bacteria including Legionella and E.Coli.
- Kills viruses, algae, fungi and spores.
- Kills host organisms like Amoeba Acanthus .
- Breaks down to Water and Oxygen with no Toxic by-products.
- Removes and treats biofilm.
- Approved for Public Water Supplies.

HYDRO PERO® is proud to offer hydrogen peroxide technology that offers disinfecting and powerful cleaning with gentleness with the following abilities : **Bactericidal, Virucidal, Tuberculocidal & Fungicidal** .

HYDRO PERO® Hydrogen Peroxide Disinfecting Cleaners is designed to be easier on those who use them on a regular basis.

- No harsh chemical fumes or smell
- Less irritating for skin
- No fragrances or dyes added
- Non-combustible, non-staining

One disinfectant technology for many applications
